

## Swift Biosciences Communication

Dear valued customer,

In March 2021, [Integrated DNA Technologies \(IDT\) announced the acquisition of Swift Biosciences](#), a step toward providing a more comprehensive NGS portfolio to advance your genomics research.

This letter serves as formal notification that all IDT and Swift Biosciences Next Generation Sequencing (NGS) products will become part of the IDT xGen™ brand. Former Swift Biosciences products integrated to the IDT xGen™ brand will be assigned new product names and part numbers as detailed in this notification. To see the complete list of products impacted, please refer to Appendix A and B.

### What will change:

- New product names
- New part numbers
- New product labels
- New safety data sheets (SDS)
- New certificates of analysis (CoA)
- New reaction sizes for select products (see highlighted products in Appendix A)

### What will not change:

- Formulation
- Manufacturing
- Quality control

### Ordering:

Please continue to submit all order requests and inquiries for Swift Biosciences products as usual until otherwise notified of a change. In advance of the transition, we encourage you to [set up your IDT web account](#).

### Additional information:

As needed, please start updating your systems to reflect these changes. Moving forward, you will receive additional communications to further assist in this transition. You may also [visit our frequently asked questions page](#) which will continue to be updated with the most recent information.

Thank you for your continued business and support.

Sincerely,  
IDT Ann Arbor (formerly Swift Biosciences)
